Provisional JEE dates for 2017/18

WHO Region	JEE in Pipeline	Dates	WHO Region	JEE in Pipeline	Dates
AFRO	Ghana	February 6-10	SEARO	Maldives	March 5-9
	Comoros	February 6-10		Thailand	June/July
	Kenya	February 20-24		Sri Lanka	June 12-16
	Zanzibar	March 19-23		Myanmar	April 27 - May 3
	Mauritania	March 27-31		Australia	Nov 24 - Dec 1
EMRO	Oman	April 2-6	WPRO	New Zealand	Q4
	Saudi Arabia	March 12-17		FSM/Cook Islands/Fiji	Q1 2018
	United Arab Emirates	March 19-23		Laos	February 17-23
	Libya	Feb 27 - March 3		Philippines	Q4
	Djibouti	May		Singapore	Q1/2 2018
	Iraq	April		Mongolia	May 12-19
	Kuwait	April 16-20		Japan	Q1 2018
EURO	Finland	March 27-31		Republic of Korea	August 28 - Sept 2
	Slovenia	June 5-9		Malaysia	October
	Switzerland & Liechtenstein	Oct 30 - Nov 3		Total	31 Countries
	Latvia	May 8-12			
	Belgium	Mid-June			

Action Packages Coordination (1)

- Indonesia commits to enhance activities of GHSA Action Packages and strengthen coordination among 11 Action Packages as the heart of GHSA.
- Include the GHSA Action Package Leaders in GHSA Steering Group Meeting in Geneva, May 2016.
- Meeting and Presentation GHSA Action Packages in 3rd GHSA Ministerial Meeting in Rotterdam, October 2016.
- Each Action Packages meetings and or teleconferences.

Action Packages Coordination (2)

**Jakarta Call For Action
on the GHSA Action Package Implementation**

Jakarta on 24 August 2016

*“Strengthening Cooperation to Enhance Capacities
in Addressing Global Public Health Threats”*

We, the participants of the Global Health Security Agenda Action Package Coordination Meeting held in Jakarta, 23-25 August 2016, appreciate the role of all participating countries of the GHSA in focusing attention on implementing GHSA Action Packages and are committed to taking action in:

- Considering a systemic integrated network as a model to allow the integration of multi-stakeholder action.
- Strengthening GHSA Action Package coordination in coherence with the development of capacities expected for the IHR (2005) implementation including through the use of recently developed Joint External Evaluation (JEE) tool and Strategic Partnership Portal (SPP).
- Strengthening the communication, coordination, and cooperation among stakeholders of the GHSA participating countries, and the international organizations, WHO, FAO, and OIE. At the sub-national, national, regional and global levels, including the non-governmental sector.
- Sharing information, experiences, and best practices in implementing and achieving Action Packages targets as efforts in accelerating the achievement of IHR (2005) core capacities and strengthening health security more broadly using a multi-sectoral One Health approach.
- Identifying challenges and opportunities in implementing Action Packages.

Adopted during the **GHSA
Action Packages
Coordination Meeting** in
Jakarta, 23-25 August 2016

Action Packages Coordination (3)

A Systemic Network Model : Coordination of Action Packages at National and Global Level was shared during the Steering Group Meeting in Bali, December 2016.

- To establish a strong Global Health Security, the 11 Action Packages at national level (national health security), as well as, at global level, (GHS) should be integrated as a systemic entity, named as Systemic Network Model
- The integration of the 11 Action Packages at national level (inter governmental agencies and other stakeholders) is managed through (1) the accountability of governmental hierarchy, (2) the sequence of management functions, and (3) the way in responding to stimulus.
- The integration of the 11 Action Packages across participant countries at GHS level into an effective network model is conducted through leadership and management functions (co-leading, co-planning, implementation, sharing information, and co-evaluation)

Health Security Financing Assessment Tool (HSFAT)

- The HSFAT is intended to complement a country assessment of health security efforts. The framework builds on the Joint External Evaluation (JEE) protocol and ideally should be undertaken in tandem with, or soon after the completion of, the JEE.
- The main objective of the tool **is to identify critical constraints and opportunities to building financing systems** that accelerate and sustain progress towards effective health security systems. In addition, the tool aims to promote national policy dialogues around health security financing and health security concerns.
- The first meeting of the Technical Working Group (TWG) was held in Bali on 14-15 December 2016. This process is led by the World Bank.

Alliance for Country Assessment (ACA)

- **Informal platform** for discussion that facilitates information exchange and access to funding, and promotes transparency in exchanging information on the results of the assessments
- Linking external assessments with country plans and country plans with external funding
- Aims at **promoting and supporting the processes** of assessments, country plans and capacity building, as well as galvanizing external funding
- To promote multisectorality, the Alliance brings together relevant sectors at country level and the relevant organizations at the international level, including FAO, OIE, WHO, and financial institutions

Members of ACA (as of 14 December 2016)

Australia	Kenya	Sudan
Bangladesh	Kingdom of Saudi Arabia	Tanzania
Burkina Faso	Malawi	United States of America
Cambodia	Nepal	Uganda
Canada	Netherlands	
Democratic Republic of the Congo	Nigeria	FAO
Ethiopia	Norway	ICAO
Finland	Oman	OIE
Gambia	Pakistan	UNISDR
Georgia	Peru	WHO
Indonesia	Portugal	World Bank
Italy	Republic of Korea	African Development Bank (ADB)
	Senegal	

Members of ACA (as of 14 December 2016)
